CAPABILITY STATEMENT

Layered Manufacturing and Consulting (LMC) (pending a Certified, Woman-Owned Small Business certification) is offering consulting, and project management, services in the Additive and Subtractive Manufacturing. We have dedicated, collaborative partnerships, offering a host of additive processes including SLA, SLS, DLS, MJF, FDM, Objet, DMLS, and EBM. LMC serves as your single point of contact for all of your manufacturing needs within additive and subtractive technologies...without any bias, or allegiance, toward process or equipment manufacturer. This assures you that we are working FOR you, without sway to one specific offering. Our collaborative networks strives to ensure quality delivery with the least hassle for you!

CORE COMPETENCIES

PAST PERFORMANCE/DIFFERENTIATORS

- Single point of contact for all manufacturing needs within additive and subtractive technologies
- Technology-agnostic approach to yielding your solutions
- Collaborative team delivering prototype and production services in manufacturing polymers, composites, and metals.
- Regulatory/Compliance certifications within collaborative partnership network
- Cross-market experience
- Consultation and Project Management to initiate, foster, and implement Additive Manufacturing
- Recipient of Distinguished Innovator Award via Additive Manufacturers Users Group (AMUG)
